PUBLIC HEARING

Mayor Pro-Tem Roby stated a public hearing was being held concerning the proposed Cedar Street Utility Project.

Paul Kraushaar, 1737 Arbor Oaks Drive, whose property is adjacent to Cedar Street, stated he would like to know more about the phases of this project. He stated he did not realize that some of the property required for the project will be purchased or donated. He stated he does not know enough about the project to respond to the information he has received.

City Engineer Jon Lutz stated that in the next couple of weeks Jim Rudisill from the city's Community Development Department will be visiting residents whose property will be affected by this project. He stated the 2011 phase of the project will be culvert work. He stated that in 2012 utility work will take place and in 2013 the paving will be done. He stated that Mr. Rudisill will be discussing the project with property owners. He then stated that individuals are welcome to call Public Works to schedule a meeting with him either at their home or in his office.

Councilmember Shihadeh asked about the timeframe for this phase of the project.

Mr. Lutz stated the goal is to have the documents for the bid letting finished in May and bids solicited in early June.

Mr. Kraushaar, speaking in reference to the 2013 paving portion of the project, stated his business is located on Cedar Street as well. He stated he travels up and down Cedar Street a lot. He asked if any interim repairs will be made to the roadway surface prior to paving in 2013.

Mr. Lutz stated Cedar Street was re-asphalted from Houser Street to the bypass and that the city will try and limp along with cold patch until the paving takes place in 2013.

Councilmember Fitzgerald asked if the potholes will be patched.

Mr. Lutz answered yes. He explained why cold patch would be used.

Tim Smith, 1741 Arbor Oaks Drive, asked where the street was going to go exactly.

Mr. Lutz stated the alignment of the street pretty much has to follow where it is now. He stated it will be necessary to put the sidewalk on the south side of Cedar Street and that City Council has indicated they want the trail on the north side of the street. He pointed out it will not be necessary to remove the timber.

There was discussion concerning the elevation of the trail.

Mayor Pro-Tem Roby stated she feels this is a topic that should be discussed at an in-depth meeting.

Mr. Lutz stated that a lot of the details can be handled individually with the residents.

Mr. Smith stated he feels it would be more expensive to do the Cedar Street project as planned.

City Administrator Gregg Mandsager stated that tonight's discussion concerns strictly the utility portion of the project. He stated that construction does not begin until 2013. He stated that between now and then individual meetings and neighborhood meetings will be held.

Mr. Kraushaar stated that currently Muscatine Power & Water's lines are above ground. He asked if they would remain on poles.

City Administrator Mandsager stated that discussions are underway with Muscatine Power & Water concerning this issue.

Mayor Pro-Tem Roby asked residents to call Mr. Lutz if they have questions or concerns.

There were no oral or written petitions for or against the proposed project.

#21529. Councilmember Bynum moved to approve the second reading of an ordinance amending Title 6 Fire Regulations, Chapter 1 Fire Department Regulations, Chapter 2 Open Burning, Chapter 4 Fireworks and Explosives, and Chapter 5 Fire Inspections. Seconded by Councilmember Lange.

Councilmember LeRette stated that he does not have a problem with 6-1 (Fire Department Regulations) and 6-5 (Fire Inspections); however, he does have a problem with 6-2 (Open Burning), and Chapter 4 (Fireworks

and Explosives), particularly as it pertains to the proposed burn permit for fire pits and the \$200 permit fee for fireworks. He stated he feels that now is not the time to add additional charges for private citizens. He stated he feels the permit fee for fire pits should be removed and the fee for fireworks reduced.

Mayor Pro-Tem Roby asked how the fee will be implemented if this ordinance moves forward because the fee is for the calendar year and the city operates on a fiscal year. She asked if the fee will be pro-rated.

City Administrator Mandsager stated it will probably have to be pro-rated for the first year. He stated that the fees being proposed are comparable to what other communities in Iowa charge. He asked Fire Chief Jerry Ewers what services are provided during a fireworks display.

Chief Ewers stated the Fire Department provides an engine with two to three firefighters for approximately four hours. He stated there is no reimbursement for the overtime cost and that \$200 is pretty cheap for the service provided. Speaking in reference to the burn permit fee, he stated that \$25 per year is pretty reasonable. He pointed out that the city does have a “no burning” ordinance.

City Administrator Mandsager stated the city does respond to calls. He stated that if residents are going to burn, they need to make sure they notify the Fire Department.

Chief Ewers stated there is a lot of administrative time involved. He stated the department also works with MUSCOM when it comes to the burn permits.

Councilmember Fitzgerald inquired about the \$8,200 for the late date of paving of Hershey Avenue.

City Administrator Mandsager stated that cost is related to the winter weather and keeping the concrete at the proper temperature.

Public Works Director Randy Hill stated the city had requested a timetable from the contractor regarding Hershey Avenue and the fact the city wanted a surface down before cold weather moved in. They had suggested laying down rock but city staff did not agree. He stated staff felt the roadway could be paved before the start of cold weather. He stated that because the city wanted the roadway paved, the subcontractor requested \$26,000 for the work but staff did not agree. He stated the city expected the contractor to pour the concrete. He stated that once it was poured, the base had to be warmed and cured. He stated the \$8,000 is what the city paid for the blankets to cover the concrete.

Councilmember Fitzgerald asked why the city is expected to pay the contractor this money when the work was part of the requirement to do the job.

Public Works Director Hill stated the city does not have to pay the \$8,000; however, it would be better to have a street that works now instead of having Hershey Avenue torn up.

Councilmember LeRette asked if the project is on schedule.

Public Works Director Hill stated that overall the project is on schedule. He stated Main Street is now ready for concrete; however, asphalt plants do not open until May. He stated the city will not allow the closing of Green and Main streets at the same time. He stated for the most part everything is on schedule. He stated that part of the delays on this project had to do with the design of Mississippi Drive which had to be approved by the Iowa Department of Transportation.

City Administrator Mandsager stated this amount does not have to be paid; however, it is a reasonable cost to get the road open for winter.
