**FOR IMMEDIATE RELEASE  
NOVEMBER 7, 2022**

## **FULL CLOSURE OF PARHAM SET FOR TUESDAY**

**MUSCATINE, Iowa** – Parham Street will be closed to all traffic between Mulberry Avenue and Briarwood Lane from 7:30 a.m. to 3:30 p.m. Tuesday (Nov. 8) as work continues on an emergency sewer repair.

Repair crews began work on Monday in the downhill section of Parham just west of the intersection with Mulberry Avenue. More issues than anticipated were discovered after opening the work site and it was determined that a water line needed to be moved to gain access to the repair area.

Public Works officials anticipate that the additional work will be completed Tuesday and the full closure will be reduced back to a one lane closure late in the afternoon.

The lane closure includes no turning from Mulberry onto Parham and will remain in effect for the rest of the week. Traffic on Parham heading east toward Mulberry will be moved to the uphill section of Parham for exit onto Mulberry.

Access to all business on Parham will be from Cedar Street.

The repair is expected to take several days with Parham tentatively scheduled to reopen late Thursday, November 10, weather permitting. Drivers are asked to slow down and use caution around the construction site and use an alternate route if possible.

The detour will be to use either Bartlett or East 9th Street.
