RE: Resolution Approving Contract and Bond for Landfill Cell 5 and Leachate Lagoon Construction.

INTRODUCTION:

The Muscatine County Landfill is close to using all available airspace in Cell #4. In order to provide future space for solid waste generated within the county the city must plan to construct the next cell. Barker Lemar Engineering Consultants is the City's consultant on the landfill and has been retained to design and help oversee construction of the next landfill cell and required leachate storage lagoon. This project is in the current budget as proposed.

BACKGROUND:

Two bids were received and opened on June 30, 2017. Bid tabulations have been attached for review. The low bidder was Rittmer Inc. with a total package bid of \$622,608.00

RECOMMENDATION/RATIONALE:

It is the recommendation of the Public Works Department that council approve the contract and bond with Rittmer Inc. for the amount of \$622,608.00. There is \$550,000 budgeted in the Landfill Budget for this project. There is also \$200,000 in the remediation plan budget for the landfill which will cover the cost of the leachate lagoon construction.
