RE: Request for Road Closure

INTRODUCTION:

Muscatine Power and Water is requesting to close Parham Street to install a new water main on Young Street and connect it to the existing water main on Parham Street.

BACKGROUND:

MPW is installing new water main on Young Street and will need to connect to the new water main on Parham. This work will require a street closure on Parham for one week. The work will take place at Parham and the upper side of the intersection of Young Street. Traffic will be reduced to one lane on Young Street. Emergency access is available from the Cedar Street side up Parham to Young but will be restricted to one lane. MPW is also coordinating to replace the electric distribution on Young Street during this time. Work is expected to begin on June 11th and be completed by June 18th, 2018.

RECOMMENDATION/RATIONALE:

Approve the request for closure of Parham Street
