RE: Request to Limit On-Street Parking in the circle area of W. Acre Drive to the Even Numbered Side Only.

INTRODUCTION:

City staff have difficulty accessing the length of the street due to the narrowness of it when cars are parked on both sides.

BACKGROUND:

Parking on the circle portion of W. Acre is currently allowed on both sides of the street. With this configuration snow plows, and emergency vehicles cannot access the entire length of the street. All residences on this section of W. Acre Drive have existing driveways for off-street parking. This topic was discussed at the March 14, 2019 in-depth council meeting. At that time one resident spoke concerning this issue. Since then staff have met with this resident and further explained the issue and the resident no longer has concerns with this proposal.

RECOMMENDATION/RATIONALE:

Staff recommends that council approve this request to eliminate on-street parking on the odd numbered or "inside" of the circle of W. Acre Drive. This will allow better access for public services for snow removal, solid waste collection and emergency response. No parking signs will be posted as soon as weather conditions permit.
