Re: Rezoning Case #PZZ-7 • Muscatine County • 1.5 Acres along 5th Street from Walnut Street to Mulberry Avenue • C-1 Neighborhood & General Commercial & R-5 Multi-Family Residence to C-2 Central Commercial

INTRODUCTION Muscatine County has submitted an application to rezone 1.5 acres located along 5th Street, between Walnut Street to Mulberry Avenue, from C-1 Neighborhood & General Commercial and R-5 Multi-Family Residence; to C-2 Central Commercial.

BACKGROUND: Muscatine County is proposing to construct a new maintenance facility for the Muscatine County General Services Department on a County owned parking lot that is located on 5th Street between Walnut Street and Mulberry Avenue. The proposed 4,800 square foot facility would house County General Services Department. From this location the General Services Department would dispatch to serve other County facilities. This facility would accommodate the storage of lawn care and snow removal equipment. These functions are currently housed in the old jail building, which is located at the northeast corner of the Walnut St and 4th St intersection, about 150 feet from the site of the proposed new facility. The proposed facility would also store search and rescue watercraft, replacing the current storage site which is located off of Washington Street. Vehicular access to the site would be from two existing curb cuts off of 5th Street.

Currently the zoning of this site is split between two zoning districts; the C-1 Neighborhood & General Commercial and R-5 Multi-Family Residence. The majority of the proposed facility falls within an area currently zoned as R-5, a zoning district that does not permit the type of use that the County is proposing. As such the County is requesting to change this area to C-2. The C-2 district is consistent with the zoning of adjoining County owned facilities to the south and west, and also permits the proposed use.

RECOMMENDATION/RATIONALE:

The Planning and Zoning Commission at their May 14th meeting unanimously voted to recommend approval of this rezoning request. Staff recommends approval of this rezoning request. The recommendation of approval is based on a finding that the proposed rezoning is supported by the adopted Comprehensive Plan, and compatibility with adjoining and nearby land uses.

The proposed location for a new maintenance facility for the Muscatine County General Services Department is logical extension of adjoining and nearby land uses. The adjoining areas to south and west of proposed site of the new facility contain the County Court House, the County Jail, and the City Public Safety Building. The activities that will occur at the proposed facility are currently taking place at the old jail building, which is located about 150 feet from the proposed site, without causing any known issues to nearby property owners.

The Mulberry Avenue and 5th Street intersection serves as a major gateway into downtown. Currently the site is being used for a surface parking lot. A non-landscaped surface does not create a visually appealing gateway into the area. The proposed structure, with appropriate architectural treatment and landscaping, would improve the visual appeal of this downtown gateway.
