BACKGROUND:

Over a year ago the City of Muscatine entered into a design contract with Shive-Hattery to do plans for the conversion of Park Ave. from a narrow 4 lane street to a 3 lane street with a center turning lane. These plans have progressed to the point where they are currently being reviewed by the IowaDOT and the work is currently scheduled for the June letting by the IowaDOT. Council held a public hearing on this capital improvement this evening. The Engineer's Opinion of Probable Construction Cost falls in the range of \$2,000,000.00 to \$2,200,000.00. This project has multiple funding sources including the IaDOT, MP&W and the City of Muscatine. The cost sharing will depend on the final bid amount, however the IaDOT has allocated \$1,297,714.00 toward this project. The project plans are posted on the City's web site for public viewing.
