STAFF

Brian Stineman, Public Works Director

SUBJECT

Asphalt Street Repair Project

EXECUTIVE SUMMARY

Due to better than anticipated Road Use Tax revenues, funds are available to be used for roadway maintenance projects. The Public Works Department has identified Leroy Street as a high priority asphalt street in need of immediate repair. Quotes were requested from three companies with the lowest responsible quote from Taylor Ridge Construction. Staff recommends approving a purchase order in the amount of \$43,550 to Taylor Ridge Construction for the mill and overlay of Leroy Street from Mulberry to Amherst Avenue. Funds are available for this project in the Roadway Maintenance Budget.

STAFF RECOMMENDATION

Approve the purchase order to Taylor Ridge Paving in the amount of \$43,550 for the mill and overlay of three inches of hot mix asphalt on Leroy Street from Mulberry to Amherst Avenue.

BACKGROUND/DISCUSSION

Due to better than anticipated Road Use Tax revenues, funds are available to be used for roadway maintenance and improvements. While there is not time and funding to bid a full asphalt overlay program this calendar year, state bidding law allows the city to receive quotes for non-vertical infrastructure projects up to \$49,999.00. Keeping in line with this requirement the Public Works Department identified high priority areas and requested bids from three contractors to mill and overlay Leroy Street from Mulberry to Amherst Avenue. The low bid from Taylor Ridge Paving is recommended for approval.

CITY FINANCIAL IMPACT

Funds for this project are available in the Roadway Maintenance Budget.
