- A. The Applicant shall abide by all provisions of this Chapter and all other applicable City ordinances. The Applicant shall not claim, as against the City, that the provisions of this Chapter are unreasonable, arbitrary, or void.

- B. It shall be a violation of the franchise for any individual or group of individuals acting in concert to formally or informally authorize any other individual or group of individuals to act as their nominee or to mislead the Council in any way in regard to the sale, transfer, or disposition of interest in or control of the Franchisee.
- C. The restrictions of this section shall be effective immediately upon execution of the franchise agreement.

5-18-7 Franchise Territory - Service Area. The franchise territory, also known as the service area, shall include the entire present territorial limits of the City and any area annexed thereto during the term of the franchise.

5-18-8 Evidence of Financial Capability. The evidence of financial soundness and capability required in the initial applicant's proposal shall be such as may be reasonably necessary to assure the City that the entire system will be completed within the time specified by Section 38 of this Chapter.

5-18-9 Geographical Coverage. The Franchisee shall provide a cable communication system in such manner as to pass and provide adequate tap off facilities for every single family dwelling unit, multiple dwelling unit or other residential unit in the City. Franchisee shall also pass and provide adequate tap off facilities for every commercial establishment within 1/4 mile of existing distribution system in the City.

5-18-10 Extension of Service. The Franchisee shall, at its expense, within one year of annexation, extend its system to have service available to all residents of:

- A. Newly annexed areas to the City where the average density is at least thirty (30) dwelling units per lineal mile of proposed trunk and feeder cable route.
- B. New housing areas developed within the City limits.
- C. Any new single family dwelling unit, multiple dwelling unit or other residential unit or commercial establishment within 1/4 mile of existing distribution system in the City shall be extended cable simultaneously with electric power and telephone utilities.

5-18-11 Television Broadcast Signals. The Franchisee shall provide, as part of its cable television service, the signals of all television broadcast signals consistent with the rules and regulations of the FCC and all other applicable laws, rules, or regulations. The Franchisee's system shall be designed, engineered, and maintained so as not to interfere with the television and radio reception of residents of the City who are not subscribers to the system.

A Spanish language television channel is of interest to the City, therefore Franchisees are encouraged to carry such a channel.

5-18-12 Education and Governmental Access Channels. During the term of the franchise, the Franchisee shall provide at no charge at least two additional channels: one for educational use and one to be used by the City, or its assignee, for any purpose. As both educational and municipal channel availability is of great interest to the City, applicants may indicate in their applications a greater number of channels dedicated for these purposes.

For any educational access channel, the Franchisee shall prohibit the presentation of any material designed to promote the sale of commercial products or services (including promotions by or on behalf of candidates for any elected or appointed office), lottery information, and obscene or indecent matter and permit public inspection of a record of the names and addresses of all persons or groups requesting access time. Such record shall be retained for a period of two (2) years.

5-18-13 Public Access Channels. During the term of the franchise, the Franchisee shall provide at least one (1) specially dedicated, non-commercial public access channel to be made available to the public, groups, and individuals on a first-come, non-discriminatory basis. Such channels shall be operated in accord with FCC rules and regulations. The Franchisee shall make no charge for use of such channel other than actual out-of-pocket expenses for production costs, if any, which are incurred in live studio presentations exceeding five (5) minutes. The Franchisee shall establish rules providing for access to the public channel on a first-come, non-discriminatory basis, prohibiting the presentation of any advertising material designed to promote the sale of commercial products or services (including promotions by or on behalf of any candidate for any elected or appointed office), lottery information, and obscene or indecent matter. A public record shall be kept and retained for two (2) years of the name and addresses of all persons or groups requesting access time. As the total number of access channels is of a great deal of interest to the City, applicants may propose a greater number of such channels than the minimum set forth herein in their application.

5-18-14 Public Access Channel Facilities. The Franchisee shall augment the television programming available by active promotion and assistance for locally originated programs. The Franchisee shall, for a reasonable charge, provide the necessary information to the public on the use of the access channels and shall provide, on request, assistance to any person seeking to develop the necessary skills to produce programs on the access channels. Further, the Franchisee shall cooperate with any person wishing to organize training workshops in connection with the use of access channels.

To these ends, the Franchisee must provide the necessary local studio and both portable and stationary equipment to support local origination of programs for transmission over the system. A studio within the City must be made available for all access users on a first-come, first-served basis. Equipment included must provide, at minimum, for the ability to use 1/2" video tapes and current technology available at the consumer level. Equipment shall include cameras, slide and film chain, portable cameras and recorders, a timebase corrector, and other appropriate equipment. The studio shall have the capability to originate cablecasts in color. Cost of maintenance of the studio and equipment shall be borne by the Franchisee. These program facilities and equipment are to be used by access cablecasters with the aid of a technical and production staff to be provided by the Franchisee.

Any Applicant shall demonstrate in its application how it plans to make the equipment, studio, and technical and production staff available. Applicants will be given preference in the selection process for plans that will most adequately meet these requirements. A full schedule of rates for the use of equipment, studio, and technical and production staff shall be submitted in the application or renewal of Franchise proposal.

5-18-15 Leased Access Channels. The Franchisee shall make a portion of the remaining unused channels available for lease to any organization, group, or individual on a first-come, first-served basis as provided in this Chapter. At least one (1) channel must be available for lease on a part-time basis. The Franchisee cannot exercise program controls over leased channels, but may adopt rules governing the leasing of channel space which: (a) provide for access on a first-come, non-discriminatory basis; (b) prohibit the presentation of lottery information and obscene or indecent matter; (c) require sponsorship identification; (d) specify a reasonable rate schedule; and (e) permit public inspection of the record of the names and addresses of all persons or groups requesting time, which record shall be retained for a period of at least two (2) years.

5-18-16 Additional Services. The Franchisee is encouraged to make available such additional video, audio, radio, digital, point-to-point service, and other services as are requested by subscribers and programmers who are willing to pay for such services, provided that such services are technologically and economically feasible. If no applicable rate exists when such a service is requested, the rate change procedures established in this Chapter shall apply. The Franchisee shall undertake to apply for any certificate of compliance or waiver necessary to permit the provision of a specific additional service. Should a dispute arise over any matter regarding additional services, the dispute may be resolved in accordance with the provisions of this Chapter relating to methods of resolving disputes. Nothing in this section shall preclude the offering of such new service on a temporary or experimental basis. In addition, public governmental and educational space shall be reserved in all information services initiated by the Franchisee at the same level as in cable television service.

5-18-17 All Channels Emergency Alert. The Franchisee shall, in the case of any emergency or disaster, make its entire system available without charge to the City or to any other governmental or civil defense agency that the City shall designate. The system shall be engineered to provide an audio alert system to allow authorized officials to automatically override the audio signal on all channels and transmit and report emergency information. The system shall also have the capability for visual transmission of emergency messages.

5-18-18 Subscriber Privacy. The Franchisee shall be constantly alert to possible abuses of the right of privacy or other legal rights of any subscriber, programmer, or general citizen resulting from any device or signal associated with the cable communications system. The possibility of such abuse shall be discussed at every scheduled review session.

The Franchisee shall abide by current Federal law and FCC regulations regarding protection of subscriber privacy.

No cable, line, wire, amplifier, converter, or other piece of equipment owned by the Franchisee shall be installed by the Franchisee within private easements without first securing the written permission of the owner, leasee, or tenant of any property involved.

5-18-19 Underground and Overground Installation Requirements.

- A. The Franchisee may lease, rent, or in any other manner by mutual agreement obtain the use of towers, poles, lines, cables, and other equipment and facilities from utility companies operating within the City, and use towers, poles, lines, cables, and other equipment and facilities for the system. When and where practicable, the poles used by the Franchisee's distribution system shall be those erected and maintained by such utility companies operating within the City, provided mutually satisfactory rental agreements can be reached. It is the City's desire that all holders of public franchises in the City cooperate with the Franchisee and allow the Franchisee the use of their poles and pole line facilities whenever possible so that the number of new or additional poles installed in the City may be minimized.
- B. The Franchisee shall have the right to erect, install, and maintain its own towers, poles, guys, anchors, underground conduits, and manholes as may be necessary for the proper construction and maintenance of the antenna site, headend, and distribution system, providing that the Franchisee has at the work site the necessary City permit(s) or copy thereof, for scheduled work, obtained in advance from the appropriate City Department.
- C. The Franchisee shall have the right to establish terms, conditions, and specifications governing the form, type, size, quantity, and location of equipment of others on its poles, and shall have the further right to charge a fair rental for attachment space or spaces occupied by the said equipment and plant of others, except that no rent shall be paid by the City for its attachment to the Franchisee's poles. The City shall pay any costs incurred by the Franchisee in providing space for the City's attachments, including any necessary rearrangements of the Franchisee's equipment and plant to provide room for City attachments. Upon expiration, termination, or revocation of a franchise, or should a Franchisee wish to dispose of any of its poles, conduit or manholes, being used by the City, the City shall have the option to purchase them in place of their fair value based upon reproduction cost less depreciation.
- D. In those areas of the City where transmission or distribution facilities of both telephone and power companies are underground or hereafter may be placed underground, the Franchisee shall likewise construct, operate, and maintain all of its transmission and distribution facilities underground to the maximum extent the then existing technology permits, in accordance with the most recent National Electrical Code as adopted by the City, the Bureau of Standards Handbook No. 81, and the Telephone System Practices Governing Joint Attachment Practices, and their successor documents, as well as in conformance with all applicable state and municipal ordinances and codes. If and when necessary, amplifiers and/or transformers in the Franchisee's transmission and distribution lines may be in appropriate housings on the surface of the ground. Such housings and the location and construction of all work required or pursuant to this section shall be approved in advance by the persons identified in Paragraph (B) of this section. Even when not required, underground installation is preferable to the placing of additional poles.
- E. All transmission and distribution structures, lines, and equipment erected by the Franchisee in the City shall be located so as not to endanger or interfere with the normal use of streets, alleys, or other public ways and places so as to cause minimum interference with the rights or reasonable convenience of the general public and adjoining property owners and so as not to interfere with existing public utility installations and so as to comply with the most recent National Electrical Code as adopted by the City, the Bureau of Standards Handbook No. 81, and the Telephone System Practices Governing Joint Attachment Practices, and their successor documents, as well as in conformance with all applicable state and municipal ordinances and codes. The Franchisee shall make available to the City, maps, plats, and records of locations and character of all facilities for inspection at our local facility.

In the case of any disturbance by the Franchisee or its equipment of pavement, sidewalks, driveway, lawn, or other surfacing, the Franchisee shall, at its expense and in the manner required by the City, promptly replace and restore all such surfacing to as near as reasonably possible its prior or better condition.

- F. The City reserves the right, upon reasonable notice, to require the Franchisee at its expense to protect, support, temporarily disconnect, relocate, or remove the Franchisee's equipment from a particular area of the City's streets if reasonably necessary by reason of traffic conditions; public safety, street construction or vacation; change or establishment of street grade; installation of sewers, drains, water pipes, power or communication lines, tracks, traffic signals, street lighting; or other conditions. Reasonable notice for this provision of the Chapter shall be construed to mean at least thirty (30) days, except in the case of emergencies.
- G. The Franchisee shall not place poles, conduits, or other fixtures above or below ground where the same shall interfere with any gas, electric, telephone fixtures, water hydrant, or other utilities, and all such poles, conduits, or other fixtures above or below ground shall be so placed as to comply with all the requirements of the City.
- H. The Franchisee shall, on request of any persons holding a moving permit issued by the City, temporarily move its wires or fixtures to permit the moving of buildings. The expense of such temporary removal shall be paid in advance by the person requesting the same, and the Franchisee shall be given not less than five (5) working days advance notice to arrange for such temporary changes.
- I. The Franchisee shall have the authority, coextensive with the legal authority of the City, to trim any trees upon and overhanging the streets, alleys, sidewalks, and public place of the City so as to prevent the branches of such trees from coming in contact with wires and cables of the Franchisee, except that at the option of the City, trimming may be done by it or under its supervision and direction at the expense and liability of the Franchisee.

5-18-20 Consumer Service Standards. Nothing in this Ordinance shall be construed to prevent or prohibit: (i) the City of Muscatine and the Franchisee from agreeing to exceed the customer service standards set forth herein; (ii) the City from enforcing, through the franchise term, pre-existing customer service requirements that exceed the requirements set forth herein and are contained in current Franchise Agreements; (iii) the establishment or enforcement of any State or municipal law or regulation concerning customer service or consumer protection that imposes customer service or consumer protection requirements that exceed, or address matters not addressed herein.

Franchisee shall schedule, either at a specific time, or, at maximum, within a specified four (4) hour time period, all appointments with subscribers for installation or service. Franchisee may not cancel an appointment with a customer after the close of business on the business day prior to the scheduled appointment. If a Franchisee representative is running late for an appointment with a customer and will not be able to keep the appoint as scheduled, the customer will be contacted. The appointment will be rescheduled, as necessary, at a time which is convenient for the customer. These Standards shall be met no less than ninety-five percent (95%) of the time, measured on a quarterly basis.
- F. Repair standards. The Franchisee shall maintain a repair force of technicians who, under Normal Operating Conditions, are capable of responding to subscriber requests for service within the following time frames:

The City Administrator shall forward the complaint to the Franchisee or shall take the question up by correspondence with the Franchisee. Within such time as may be prescribed by the City Administrator, the Franchisee shall resolve the complaint or advise the City of its refusal or inability to do so. When the Franchisee resolves the complaint, it shall so notify the City. If a complaint has not been resolved, the complainant may petition the City to take any appropriate action authorized by this Chapter.

5-18-23 Review Sessions. In recognition of the fact that a great many technical, financial, marketing, and legal uncertainties are associated with all aspects of cable communications at the present time, it is the intent of the City to provide for a maximum feasible degree of flexibility in this franchise throughout its term to achieve an advanced and modern system for the City. The principal means for accomplishing this flexibility will be the scheduled review sessions provided for in this Chapter. It is intended that such review sessions will serve as a means of cooperatively working out solutions to problems that develop. Furthermore, such review sessions shall be two-way processes. For example, if either party has perceived that some major problem has developed, the session shall be devoted primarily to working out solutions acceptable to both parties.

5-18-24 Triennial Review Sessions. The City and the Franchisee shall hold scheduled review sessions no later than April 30, of calendar year 1997 and every third year thereafter for the duration of the franchise. All such review sessions shall be open to the public and notice thereof shall be published once, not less than ten (10) days nor more than twenty-five (25) days before each review session, as provided by law. The published notice shall specify the topics to be discussed.

5-18-25 Topics to be Reviewed. The following topics shall be discussed at every scheduled review session:

5-18-29 Switching Device. The Franchisee, upon request from any subscriber, shall install, at cost, a switching device to permit a subscriber to continue to utilize the subscriber's television antenna. The Franchisee shall not require the removal, or offer to remove, any subscriber's antenna or antenna lead-in wire. In order to restrict the viewing of unwanted programming upon the request of a subscriber, a cable operator shall provide (by sale or least at a reasonable cost) a device by which the subscriber can prohibit viewing of a particular cable service during periods selected by that subscriber.

5-18-30 Disconnection. There shall be no charge for disconnection of any installation. If any subscriber fails to pay a fee or charge, the Franchisee may disconnect the subscriber's service. Such disconnection shall not be effected until the subscriber has been given ten (10) days advance written notice of the intention to disconnect. After disconnection, upon payment of any required delinquent fee or reconnection charge, the Franchisee shall promptly reinstate the subscriber's service.

5-18-31 Termination of Service. Within 30 days of termination of service to any subscriber for any reason, the Franchisee shall, upon the subscriber's written request, promptly remove all its facilities and equipment from the subscriber's premises without charge.

5-18-32 Unauthorized Connections or Modifications.

- A. It shall be unlawful for any firm, person, group, company, or corporation, without the expressed consent of the Franchisee, to make any connection, extension, or division whether physically, acoustically, inductively, electronically, or otherwise with or to

any segment of the system, except for residential inside wiring, for any purpose whatsoever.

- B. It shall be unlawful for any firm, person, group, company, or corporation to willfully interfere, tamper, remove, obstruct, or damage any part, segment, or content of the system for any purpose whatsoever.
- C. Any firm, person, group, company, or corporation convicted of a violation of this section shall be guilty of a misdemeanor, and shall be subject to all punishment under Iowa and Federal law.

5-18-33 Discriminatory or Preferential Practices. The Franchisee shall not, in making available the services or facilities of its system, or in its rules or regulations, or in any other respect, make or grant preferences or advantages to any subscriber or potential subscriber to the system, or to any user or potential user of the system and shall not subject any person to any prejudice or disadvantage based on their race, color, national origin or gender. This provision shall not prohibit promotional campaigns to stimulate subscriptions to the system or other legitimate uses thereof; nor shall it prohibit the establishment of a graduated scale of charges and classified rate schedules to which any customer coming within such classification shall be entitled.

5-18-34 Refunds to Subscribers and Programmers.

- A. If the Franchisee fails to provide any material service requested by a subscriber or programmer in accordance with the current FCC standards, the Franchisee shall, after adequate notification and being afforded the opportunity to provide the service, promptly refund all deposits or advance charges paid for the service in question by the subscriber or programmer.

5-18-35 Public Service Installations. The Franchisee shall, without charge for installation, maintenance, or service, install a single subscriber outlet at each public building and public school building in the City located within 200 feet of the existing feeder system. Such installations shall be made at such reasonable locations as shall be requested by the respective units of government or educational institutions. Any charge for relocation of such installations shall, however, be made at actual cost. Additional installations at the same location may be made at cost. No monthly service charges shall be made for the provision of Basic Service and Expanded Basic within such buildings.

The Franchisee shall also provide free live audio and video origination connection of the Cable Television System for each of the following: City of Muscatine, Musser Public Library, Muscatine Art Center, Muscatine School District, Muscatine Community College, and Veterans' Plaza Complex, provided that such facilities are within 500 feet of the existing return system.

5-18-36 Other Business Activities. Subject to the right of the City Council to change this policy, the Franchisee shall not engage in the business of selling, repairing, or installing television receivers, excluding converters, in the City of Muscatine during the term of this franchise. Nothing herein shall be deemed to prohibit the Franchisee, at a customer's request, from examining and adjusting a customer's receiver set to determine whether reception difficulties originate in the set or in Franchisee's system.

5-18-37 Franchisee Fee. As compensation for the franchise granted herein and in consideration for the use of the streets and public ways of the City for the construction, operation, maintenance, and reconstruction of a system within the city, the Franchisee shall pay to the City an annual amount equal to five percent (5%) of the Franchisee's Gross Annual Revenues as defined in Section 5-18-2 of this Ordinance, provided, however, that such amount shall not include any taxes on Cable Service which are imposed directly or indirectly on any subscriber thereof by any governmental unit or agency and which are collected by the Franchisee on behalf of such governmental unit or agency. This includes, but is not limited to, all subscribers' payments, installation fees, converter boxes, advertising, leased access channels, pay-per-view and cable service exchanged in barter agreements. All funds due to the City pursuant to this subsection shall be deposited into the general fund of the City. Payment due to the City under this provision shall be made quarterly at the City Clerk's Office not later than 45 days following March 31, June 30, September 30 and December 31 each year. Any fee not paid when due shall bear interest at the rate of one and one-half percent (1 1/2%) per month from the date due. Each payment shall be accompanied by a detailed report showing the basis for the computation, specific income categories and such other relevant facts as may be required by the City. The acceptance of any payment shall not be construed as an accord that the amount paid is, in fact, the correct amount; nor shall such acceptance of payment be construed as a release of any claim the City may have for additional sums payable by the Franchisee. All amounts paid shall be subject to audit and recomputation by the City.

5-18-38 Construction and Operation Timetable. The Franchisee shall commence construction of the system not later than thirty (30) days after issuance of all the necessary permits and agreements relating to the Cable Television System. The Franchisee shall apply for all these necessary permits and agreements thirty (30) days after award of the franchise by the City. The Franchisee shall conduct any engineering studies necessary to permit the commencement of construction within thirty (30) days after issuance of the permits or agreements. Within one (1) year after construction commences, the Franchisee shall complete its studios and cablecasting facilities and the same shall be fully operational. Within one (1) year after construction commences, the Franchisee shall reasonably make cable service available to at least thirty-five percent (35%) of the potential subscriber terminals in the City. Within two (2) years after construction commences, the Franchisee shall complete construction of the system within the City.

5-18-39 Right of Inspection of Construction. 5-18-40 Technical Standards.

1. Methods of construction, installation, and maintenance of the Cable Television System shall comply with the most recent National Electrical Code adopted by the City, to the extent that such Code is consistent with local law affecting the construction, installation, maintenance of electric supply and communications lines. The City's right under this provision shall be limited to requiring tests, analyses, and reports covering specific subjects and characteristics based on said complaints or other evidence when and under such circumstances as the City has reasonable grounds to believe that the complaints or other evidence require that tests be performed to protect the public against substandard cable service.
 2. Any special performance tests or measurements required by the City to be taken pursuant to subsection (3)1 shall be reported to the City within fourteen (14) days after such tests or measurements are performed. Such report shall include the following information: the nature of the complaint which precipitated the special tests; what system component was tested, the equipment used, and procedures employed in said testing; the results of such tests; and the method in which such complaints were resolved. 5-18-41 New Developments. The Franchisee is encouraged to upgrade its facilities, equipment, and service so that its system is as advanced as the current state of production technology will allow. Such new developments shall be a topic of discussion at all review sessions and shall be a factor to be considered in connection with requests for rate adjustments.

5-18-42 Communications with Regulatory Agencies. Copies of all petitions, applications, communications, reports, and all other documents submitted by the Franchisee or its parent companies to the FCC, Securities and Exchange Commission, or any other Federal or State regulator commission or agency shall be made available to the City upon written request to Franchisee.

Said accountant or accountants shall not disclose to the City any information other than that relating solely to the accuracy and completeness of payments and reports required of the Franchisee by this Chapter. At the time of any such inspection, Franchisee will make all books and records necessary for such inspection available at the Franchisee's Muscatine office.

- B. Within ten (10) days after notice to it that any amount has been withdrawn from the security fund deposited pursuant to subdivision (A) of this section, the Franchisee shall pay to, or deposit with, the City Clerk a sum of money sufficient to restore such security fund to the original amount of \$5,000.00.
- C. If the Franchisee fails to pay to the City any compensation within the time fixed herein; or fails after ten (10) days notice to pay to the City any taxes due and unpaid; or fails to repay to the City within such ten (10) days, any damages, costs, or expenses which the City shall be compelled to pay by reason of any act or default of the Franchisee in connection with this franchise; or fails after three (3) days notice of such failure by the City Council to comply with any provision of this contract which the City Council reasonably determines can be remedied by an expenditure of the security, the City Clerk may immediately withdraw the amount thereof, with interest and any penalties, from the security fund. Upon such withdrawal, the City Clerk shall notify the company of the amount and date thereof.
- D. The security fund deposited pursuant to this section shall become the property of the City in the event that this contract is cancelled by reason of the default of the

Franchisee. The Franchisee, however, shall be entitled to the return of such security fund, or portion thereof, as remains on deposit at the expiration of the term of this contract, provided that there is then no outstanding default on the part of the Franchisee. - C. Upon cancellation or expiration of the franchise, the City may, in a lawful manner and upon payment in readily available funds, purchase the system for a price equal to its fair market value. The fair market value shall be determined by an independent organization acceptable to both parties in accordance with generally accepted cable television appraisal and accounting principles. The original cost of all tangible and intangible property, as well as salvage value, the book value, and replacement cost, cash flow, and other factors may be considered. However, under no circumstances shall any valuation be made for any right or privilege granted pursuant to this Chapter. Should a dispute arise over the determination of the fair market value of the system, the dispute shall be resolved by arbitration in accord with the rules of the American Arbitration Association. If the City elects to purchase the system, the Franchisee shall promptly execute all documents necessary to transfer title to the City and shall assign all of the contracts, leases, licenses, permits, and any other rights necessary to maintain continuity of service to the public. The Franchisee shall cooperate with the City to operate the system for a temporary period, in maintaining continuity of service. Nothing herein is intended as a waiver of any rights the City may have.

5-18-47 Indemnification. 5-18-48 Insurance. The Franchisee shall maintain insurance in such amounts and kinds of coverages as may be specified by the City. Such coverages may be adjusted by the City with ninety (90) day notification. The Franchisee shall maintain such insurance with insurance underwriters authorized to do business in the State of Iowa. All policies shall name the City, its employees, servants, agents, and officers as additional insured parties. Certified copies of the insurance policies required by this section shall be filed with the City Clerk prior to the commencement of construction. Each policy shall provide that it may not be cancelled nor the amount of coverage altered until thirty (30) days after receipt by the City Clerk of a registered mail notice of such intent to cancel or alter coverage.

The City shall have the right to cancel this franchise one hundred twenty (120) days after the appointment of a receiver or trustee, to take over and conduct the businesses of the Franchisee, whether in receivership, reorganization, bankruptcy, or other action or proceedings, unless such receivership or trusteeship shall have been vacated prior to the expiration of said one hundred twenty (120) days, or unless:
