FOR IMMEDIATE RELEASE

October 31, 2017

INTERSECTION CLOSED FOR SEWER LINE REPAIR

Day/Birch/Nebraska intersection closed as City of Muscatine repairs sewer line

MUSCATINE, Iowa – The intersection at Day/Birch/Nebraska has been closed for emergency repairs to a sewer line. City of Muscatine crews discovered a small leak Monday morning and began excavating the site Tuesday morning. The leak was traced back to an abandoned building but required a larger than expect hole to be dug in the intersection.

Crews are working to repair the sewer line and will then backfill the hole. However, it is unclear as to how long the intersection will be closed to complete the repairs to the sewer line and the intersection.

Drivers are urged to use caution around the intersection and to use an alternate route if possible.
