**FOR IMMEDIATE RELEASE  
APRIL 13, 2021**

## **CHC OFFERS MODERNA IN PLACE OF J&J VACCINE**

*CDC recommends pause in use of Johnson & Johnson vaccine pending review*

**MUSCATINE, Iowa** – The CDC is recommending a pause in the administration of the Johnson & Johnson vaccine effective today (April 13) according to Muscatine County Public Health after rare blood clots and platelet changes were reported in six people who received this vaccine (out of just under six million doses given in the U.S.).

The pause in the distribution of the Johnson & Johnson vaccine will be in effect until the CDC and other organizations review the data and make a recommendation on safety. This does not affect Pfizer or Moderna vaccines.

Community Health Care, Inc. (CHC) will be postponing all scheduled Johnson & Johnson vaccine clinics as this time. Appointments scheduled in Muscatine this week have been switched to the Moderna vaccine. If you already signed up for the Johnson and Johnson vaccine you do not need to reserve an appointment again.

The CHC vaccine clinics will be held at [The Salvation Army of Muscatine County, Iowa](#) on Thursday, Apr. 15 (Access Code: CHC <https://bit.ly/3wRYvZh>), and at [UnityPoint](#)
