Park. This is just the first step of the project and will include a series of public meetings that will be scheduled later.

Watersmith Engineering was selected to conduct a watershed study of the Lake Park Boulevard area. The study will help determine possible courses of action that can be used to mitigate street flooding in the 700 block of Lake Park Boulevard.

The Council will be asked to approve three public hearings for the August 5 Council meeting including a hearing on vacating certain utility easements in Lot 1 of Arbor Commons Subdivision, a hearing on vacation and sale of right-of way adjoining 1820 Angle Street, and a hearing on an application for Community Development Block Grant funds.

Also on the agenda are three items revolving around 704 Spring Street. The Council will be asked to approve a resolution to accept a quick claim deed to the property, a resolution declaring the property as surplus, and a request to approve a development agreement with the Community Foundation of Greater Muscatine. The Foundation plans to renovate the structure into a single family home.

While public access to the Council Chambers is permitted for the first time since March 2020, those wanting to watch or participate in the meeting but not attend in person can attend through the virtual GoToMeeting portal. Information on joining the session and how to make a comment during the meeting is listed below.
