“It is an incredible feeling to be so accepted into the family,” Sheber said recently. “They push me to my limits and never stop helping me to become a better EMT and firefighter.”

The 29-year-old from Tipton became acquainted with the Muscatine Fire Department while doing her ride time when she was in EMT (Emergency Medical Technician) school.

“Everyone was so helpful and so passionate about teaching me the skills I needed to advance in my career,” Sheber said.

She is currently working on becoming a paramedic.

Sheber had some friends that participated in the junior volunteer firefighter program in her community while she was in high school and that sparked her interest in the fire service.

“Seeing the love they had for it really peaked my interest in emergency medical services,” Seber said.

She joined the Clarence Community Ambulance service in 2018.

“I never realized that I could love a profession so much,” Sheber said.

While she enjoys what she does, Sheber also says that the job is definitely a demanding one.

“You might not always be able to be home for the holidays or family events, which is sometimes hard,” Sheber said. “But the feeling of helping someone and giving them the opportunity to go back home to their families makes it all worth it.”

For those who might be interested in a career with the fire service, Sheber recommends to just do it.

“I promise you will love it,” Sheber said. “It is the best decision I have ever made.”
