TEMPORARY ENTRANCES FOR TWO GRANDVIEW BUSINESSES

Paving of Grandview Avenue closes main entrances to two businesses next week

MUSCATINE, Iowa – Temporary entrances have been established for two Grandview Avenue businesses that will be affected by paving next week. Access from Grandview Avenue to El Allende and Bosch Pest Control will be closed starting Thursday (Dec. 9) due to the construction activity.

A temporary entrance for both businesses has been created with access off of Musser Street through the Pearl City Wood Products driveway (take Houser Street to Musser Street to Pearl City Wood Products).

Heuer Construction will begin concrete work on the final lane (southbound) of Grandview Avenue from between Brier and Musser Streets to Day Street starting Thursday. If the tentative schedule holds, the new driveways for both businesses will be open for traffic as early as December 18.

The main detour around the construction zone remains in place as work continues on Grandview Avenue. However, access to all businesses has been and will be maintained along Grandview Avenue.
