Mr. Klimes stated that at this time the City Code only allows for hunting in City limits to be done on private property of a certain acreage and tonight's vision would be to understand where City Council stands on the possibility of allowing deer hunting on City owned properties.

There was discussion between staff and Council regarding the location of properties proposed, who would be allowed to hunt on said properties, the testing and licensing process prior to the hunt and public input from residents that enjoy the deer.

Mr. Klimes stated if Council consents to move forward, McKee Park near White Distribution and Houser Hill (Corner of Houser and Hershey) would be two locations that would be proposed.
