**FOR IMMEDIATE RELEASE
OCTOBER 15, 2022**

TRAFFIC ALERT - LANE RESTRICTIONS ON GREEN STREET

Public Works to patch asphalt pavement from Grandview to Hershey October 17-24

MUSCATINE, Iowa – Green Street will be reduced to one lane of traffic in each direction from Grandview Avenue to Hershey Avenue starting Monday (Oct. 17). The Public Works Department will be milling and patching the asphalt pavement in this section with work expected to take one week to complete, weather permitting.

Once the patching has been completed the pavement will be striped as part of the Grandview Avenue Reconstruction Project, reducing the four-lane configuration to three lanes to match the lane configuration to be striped on Grandview Avenue.

Drivers are urged to use caution, slow down, and be alert for workers when driving through the work zone.

The contractor for the Grandview Avenue Reconstruction Project anticipates to begin installing the permanent stripe on Grandview Avenue the week of October 24, weather permitting.
