**FOR IMMEDIATE RELEASE
OCTOBER 22, 2022**

TRAFFIC ALERT - LANE RESTRICTIONS ON GREEN STREET

Repairs in northbound lanes completed; work in southbound lanes planned next week

MUSCATINE, Iowa – Asphalt repairs in the northbound lanes of Grandview Avenue/Green Street were completed Friday with all traffic control moved out of the roadway for the weekend. The Department of Public Works plans on undertaken asphalt repairs to the seam in the southbound lanes next week. However, with the current forecast of rain for the beginning of the week, milling and an asphalt overlay may be held off until midweek.

Drivers are urged to use caution, slow down, and be alert for workers when driving through the work zone.

The contractor for the Grandview Avenue Reconstruction Project anticipates installing the permanent stripe on Grandview Avenue the week of October 24 or the week of October 31, weather permitting.
