Re: 95 Gallon Curbside Containers

Recycling Center  
Transfer Station  
Landfill Operations  
Refuse Collection

**Introduction:**

The City provides curbside collection containers for residential and some commercial refuse collection. The roll out carts are available in three different sizes; thirty five, sixty five and ninety five gallon. Residents are able to request use of the size cart that best suits their household.

**Background:**

While our inventory remains good for both the thirty five and sixty five gallon carts, the ninety five has proven to be popular with both residential and commercial customers. The charge for requesting any of the three carts is the same and upsizing or downsizing carts is done at no charge to the user. We are currently down to an inventory of three and need to place a minimum order of 112 carts in order to continue filling requests in the community for the ninety five gallon carts. Not all requests are to upsize from a smaller cart, we are also replacing carts that break while in service and filling requests from new home or business owners.

**Recommendation/Rationale:**

Staff recommends that the council approve issuing purchase order in the amount of \$6059.20 to Rehrig Pacific Company for the purchase of 112 ninety five gallon carts. Rehrig Pacific Company is the only vendor asked to price these carts as they are the same carts in use throughout the community and staff has had good comments on these carts. We also have all of our carts under warranty thru Rehrig Pacific Company. This expense would be taken out of the Refuse Budget.
