**Re: REQUEST FOR FAA GRANT APPLICATIONS FOR RESURFACING  
PARALLEL TAXIWAY TO RUNWAY 6/24**

**Introduction and Background:** The FAA has recently funded the Airport Improvement Program (AIP) with over \$1BB and is soliciting for proposals for infrastructure projects at the Airport. We may have one that qualifies; the parallel taxiway along the newly constructed runway.

There are three types of funding sources we can use from the FAA for AIP projects; scheduled, discretionary and supplemental. Both scheduled and discretionary require the City to provide matching funds of 10% of the grant amount. However, supplemental funding does not require a match but it could use some of the entitlement funds that we have banked for other projects.

This project is for resurfacing the parallel taxiway to runway 6/24 and is estimated to be around \$3MM in total. If successful, construction is scheduled to start in the spring of 2019. It will be applied for in three phases, in the order of most need 1<sup>st</sup>.

**Recommendation:** Staff hereby requests of the Council to allow the Community Development Department to apply for (up to three) applications to the FAA.

**Documentation:**

1. Draft plans for taxiway construction
