Monthly report of the City Departments of the City of Muscatine

The City Administrator's Monthly Report is intended to provide a brief summary of City activities, with links to additional information where possible. Due to the variety and complexity of City functions, however, the report is not all-encompassing. Please always feel free to contact the City of Muscatine for more information or with questions or concerns. View past and upcoming events on the City's calendar. Any feedback can be provided to the City Administrator's office by sending an email to feedback@muscataineiowa.gov.

JANUARY HIGHLIGHTS

In this report you will find detailed activity from City Departments for January 2021, such as:

- **City Administration** created and implemented COVID-19 policies that allowed for minimal disruption to services while still supporting the employee's needs.
- The **Public Art Advisory Commission** announced two public art opportunities - murals on the retaining wall along Houser and an installation in or near the roundabout at Second and Mulberry.
- **Community Development & Finance** implemented an emergency small business loan program to assist locally owned businesses impacted early by COVID-19 mandates.

From The City Administrator

Welcome to the first edition of the City Administrator's monthly report. This report is intended to provide a snapshot of the City's activities by department, provide data and information on City services, and to highlight upcoming activities. The report will be provided to the Mayor and City Council and will be published on the City of Muscatine website.

The City was off to a busy start in January 2021. Winter arrived and our Public Works and Parks and Recreation staff dedicated significant resources to plowing and applying deicing materials to streets, trails, and sidewalks to support the safety and mobility of the Muscatine community.

Public Works staff dedicated over 1900 hours of staff time to snow and ice control operations in January and continue to invest a significant amount of resources in winter operations. Other departments continued services through snow and cold as well, including our Muscabus drivers, our police officers, and our firefighters. Fire Department staff responded to 461 calls for service, averaging about 15 calls per day. In addition to responding to a high call volume, Fire Department staff continued fire prevention activities, including 48 fire inspections.

City budget discussions kicked off on January 28 with an overview of the City Administrator's recommended budget by the City's Finance Director, Nancy Lueck. The proposed Fiscal Year 2021/2022 budget reflects no increase in the overall City tax rate of \$15.67209/\$1,000 of taxable property valuation - a rate the City has maintained for the last 12 years. The overview was followed by 5 additional budget sessions (including 2 full day Saturday sessions) to review revenue sources, budget proposals from City departments, and current and future capital projects. Budget proposals and department objectives align with the City Council's recently adopted [City Strategic Plan](#), to ensure that the City's resources are dedicated to delivering on Council and community priorities. Due to restrictions on in-person attendance due to COVID-19, all budget sessions were offered virtually and are available on the City's YouTube Channel. City Council's next steps related to budget include a public hearing and approval of the proposed property tax levy (March 4) and a public hearing and adoption of the amended FY2021 budget and the FY2022 budget on March 18.

As the new City Administrator, I am excited to share with our community all of the good things happening at the City of Muscatine. Any feedback can be provided to the City Administrator's office by sending an email to feedback@muscatineiowa.gov.

Department of Public Works (January 1-31, 2021)

The Public Works Department is composed of eight divisions which include: Administration, Building & Grounds Maintenance, Collection & Drainage, Engineering, Roadway Maintenance, Solid Waste, Transit (Muscabus), and Vehicle Maintenance. For budgeting purposes several of these divisions are broken down into subdivisions. For the purpose of the monthly report there will be several divisions that will be reporting consistently, while others may only be reporting on special events or accomplishments.

Roadway Maintenance Division Report January 2021:

Roadway Maintenance includes activities related to street repairs, snow removal, traffic control, and street cleaning. They are responsible for over 254 lane miles of streets within the city limits.

This chart shows the number of calls after snow events and the response time to them. Our goal is to respond to requests for service within two days.

The chart below shows the amount of time, equipment and material used for snow and ice removal

January Snow Event Totals
1926.4 Hours Worked | Total Cost \$303,994

Potholes Filled, Pounds per Pothole, Cost Per Pothole

This measure indicates the number of potholes filled, the amount of material used to fill the hole in pounds, and the cost to fill each pothole. Beginning January 20, 2021, a "standard" pothole is defined as being the size of large pizza box. Potholes will be divided no smaller than one half of a pizza box.

Building and Grounds Activities for January 2021:

This month in addition to their regular duties including cleaning, plumbing, electric, HVAC work and all other regular repairs, staff have been working on public works indoor beautification projects including painting, ceiling tile replacement, lighting upgrades and floor resurfacing. The drinking fountain at the Public Safety Building outside of MUSCOM was replaced with a water bottle filler. Staff repaired the Art Center humidifiers and oversaw the warranty work on the Art Center chiller. Deferred maintenance work was completed on the Public Works wash bay interior walls. Staff is currently working on washing the remaining wall and painting the wall that wasn't covered in the wash bay repairs, plus we are doing lighting upgrades in the bay. Staff has been doing snow removal at all our buildings plus bus shelters. In addition, they have kept buildings supplied with all Covid-related supplies.

MuscaBus Summary of Operations for January 2021:

For the month of January 2021, MuscaBus provided 5,512 route rides (up 175 from Dec 2020), 985 shuttle rides (up 54 from Dec 2020), and 408 evening rides (up 14 from Dec 2020). COVID had not hit us yet at this time last year. Our route rides are down 46%, shuttle rides are down 60% and evening rides are down 20% from January 2020 ridership.

We continue to do all we can to make transportation safe on MuscaBus. We are cleaning the buses daily, requiring masks to be worn by passengers and drivers, monitoring the health of drivers and taking temperatures, and requiring passengers to have a destination when getting on the bus. We no longer allow passengers to just ride around for several hours, as we want to provide more space between passengers that are riding. The President has signed an executive order requiring all public transportation passengers and operators to wear masks. We have required this since April 2020.

Engineering Division Report January 2021:

The following table describes current and proposed construction projects and their status.:

Project Name	Bids Due	Project Award	Approx. Construction Start

Muscatine Art Center

The Muscatine Art Center staff applied for an Iowa Rural Heritage Revitalization grant in the amount of \$125,000 to implement a treatment plan for the historic Japanese Garden.

The new exhibition, "Great Cover Ups: Quilts of the 19th & 20th Centuries," will be on view through April 4, 2021. The exhibition features approximately 30 quilts from the permanent collection as well as nearly a dozen mid-1800s prairie dresses worn by women from the Muscatine area.

"Valentine's Day in a Bag" kits were available for free from the Muscatine Art Center. Each bag contains Valentine's crafts for kids to make at home with just a few additional supplies. Stop by during regular hours to pick up a free kit.

One quarter of slip and fall injuries on ice occurred while walking into work.

Walking during the winter requires special attention to avoid slipping and falling.

The National Safety Council estimates that falls cause more than 1,500 deaths and 300,000 injuries per year.
